**Pressboard, Particle Board and/or Engineered Wood Furniture**

Furniture manufactured from pressboard, particle board and engineered wood is designed to go into a box from the manufacturer, to the retailer, and then to the customer unassembled. It is not built to withstand the normal stresses of a move as an assembled unit. Most is not designed with the extra wood structural pieces to adequately brace the unit for movement out of or into a residence, nor the normal truck vibration, even in air ride trailers. Usually chips or dents are not repairable. Surface impressions can be made on the furniture when writing on a single piece of paper.

[ ] **Option 1** – I/we choose to disassemble all press board, particle board and/or engineered wood furniture prior to move. I/we assume all responsibility for damage to the pressboard, particleboard and/or engineered wood furniture, which may occur during the disassembly of the furniture.

[ ] **Option 2** – I/we have engaged the services of another individual or company to disassemble all press board, particle board and/or engineered wood furniture prior to move. I/we assume all responsibility for damage which may occur to the pressboard, particle board and/or engineered wood furniture during the disassemble of the unit.

[ ] **Option 3** – I/we, am/are tendering furniture constructed of press board, particle board and/or engineered wood fully assembled as part of our move. I/we understand that any claim for damage to the press board, particle board and/or engineered wood furniture may be denied due to inherent vice, based upon the fact that fully assembled press board, particle board, and/or engineered wood furniture is inherently susceptible to damage as outlined above.
